

## **CEDAT85 and Sennheiser Team Up to Deliver**

### **Clear and Secure Speech Transcription in Real-Time**

*No internet connection required for this combined audio solution showcased at ISE 2022*

Barcelona, 12 May 2022 – CEDAT85 and Sennheiser, the first choice for advanced audio technology that makes collaboration and learning easier, are pleased to announce a bundled audio solution that combines CEDAT85's innovative stand-alone transcription solution, CABOLO®, with Sennheiser's Speechline Digital Wireless (SLDW) microphone system. Together, these industry-leading products enhance the inclusiveness of meetings by providing superior speech intelligibility with real-time language transcription and translation, ensuring all participants can speak and be heard in their language of choice. This is the first step for both companies as they enter into a partnership to present a joint offering of AI enriched solutions in the world-wide arena.

Both Sennheiser and CEDAT85 are exhibiting at ISE 2022 in Barcelona from the 10<sup>th</sup> to 13<sup>th</sup> of May, showcasing how the SLDW system and CABOLO® can be applied in real-world scenarios to eliminate language barriers. Attendees can visit CEDAT85's stand 3B800 to watch live demonstrations of CABOLO® with SLDW. Sennheiser will be highlighting its complete business solutions portfolio, including SLDW, at stand 3C600.

CABOLO® is an innovative solution that, without any internet connection requirement, can automatically record, transcribe, and translate in real-time meeting and interview content with the utmost confidentiality, keeping the conversations encrypted (the files produced are encrypted with AES 256 encryption algorithm) and stored securely.

Also featuring AES 256 encryption, Sennheiser's SLDW combines the advantages of a wireless microphone with automatic frequency selection to create the perfect digital wireless microphone system for speech and lecture. The SLDW's versatility and ability to adapt to the requirements of individual applications makes it an ideal choice for industry partners seeking an innovative audio solution to complement their technology.

#### **About CEDAT85**

CEDAT85 is the pioneer and market leader in Automatic Speech Recognition and speech-to-text technologies, operating since 1985, with hundreds of customers operating on international markets through its subsidiary Speech-i Limited in London. The company has been profiled by Gartner in their market researches for five times so far: Vendor ID Toolkit for Natural Language Technologies (2022), Hype Cycle for Natural Language Technologies (2021), Hype Cycle for Frontline Worker Technologies (2021), Market Guide for Speech to Text solutions (2020), and Competitive Landscape (2018). Cedat85 is now a point of reference in the treatment of content originating from speech, relying on a team of highly specialised professionals, grown over time both in terms of number and skills through plans of continuous specific training; methodologies gradually refined to ensure the highest quality levels; innovative technologies designed specifically to treat the audio and the text while keeping them connected between them.

CEDAT85's experience in speech technologies is proven by more than 500 public administration clients around Europe such as the European Parliament, the Italian Chambers of Deputies, the Italian

### **About the Sennheiser brand**

We live and breathe audio. We are driven by the passion to create audio solutions that make a difference. Building the future of audio and bringing remarkable sound experiences to our customers – this is what the Sennheiser brand has represented for more than 75 years. While professional audio solutions such as microphones, meeting solutions, streaming technologies and monitoring systems are part of the business of Sennheiser electronic GmbH & Co. KG, the business with consumer devices such as headphones, soundbars and speech-enhanced hearables is operated by Sonova Holding AG under the license of Sennheiser.
